3 October 1958

MEMORANDUM FOR: Career Council

SUBJECT:

Records of Uncompensated Overtime

- 1. Pursuant to my commitment to the Career Council at its meeting on 23 July 1958, I am forwarding herewith a memorandum from the Comptroller concerning the maintenance of uncompensated overtime records and the probable values of such information. Since this document recommends the development of a separate reporting mechanism, but does not clearly state why the present time and attendance report could not be adapted to this purpose, I have inquired further into this aspect of the problem and present the following supplemental comments:
 - (a) There is a very important time factor involved in the processing of payrolls, particularly in pay periods with holidays. The injection of this additional factor would necessitate the punching of a separate group of IHM cards and thereby slow the payroll processing.
 - (b) The T & A Form is already crowded, and the most that could be reflected would be a single figure representing total uncompensated time during the pay period. It would be impossible to reflect such time on a day-to-day basis. Such composite reporting would eventually degenerate into guesses, and the product would be of doubtful accuracy. To be effective, the reporting system should be based on a daily "worksheet".

	thereby introducin	ensated overtime is recorded on the T & A Form, another factor to be separated, it would increase error and possibly result in decreased accuracy in sing.	25X
--	--------------------	--	-----

3. In this age of frozen monetary and person	
the heavy emphasis on the elimination of marginal	requirements, it would
seem to be inadvisable to further complicate the s	dministrative reporting
unless there is a clearly demonstrated need for the	me product to be obtained.
